

25th Anniversary Projects

We celebrated our 25th anniversary by giving a gift to a needy person(s) in the New River Valley. This was our way of showing how much we appreciate the support of our community. Our friends and clients helped us to find the qualified nominees. Millie Warden of Christiansburg and Susie Ratcliff of Blacksburg were chosen as the winners in a drawing.

Millie's project

We replaced damaged ceiling tile in Millie's bedroom and living room, and a new kitchen floor covering was installed. Because the bathroom had a recurring mold problem, a fan and duct work system was installed so moisture could be vented from the room. The bathroom walls were then repaired and painted. A GFI outlet (for safety) and switch to the vanity light were put in.

Susie's project

Because Susie can no longer navigate her basement stairs, a laundry area was fit into her kitchen/dining area. A stacked washer/dryer unit solved to space crunch problem. Susie's bathroom door was retrofitted so she could get into the bathroom with her walker. Discovering that the bathroom floor was rotted, a new floor was installed. We also did a minor kitchen remodel. Cabinet were moved to make room for the washer/dryer unit, and a new sink, faucet, and countertops were installed. a mobile cabinet and top were built on wheels so Susie can easily move it if more room is needed when she has company.
